The Airmic Education Programme targets the learning needs of all risk and insurance professionals at different stages in their Professional Journey, whether they are new to the profession, leading a team, or looking for opportunities to develop and top up their knowledge.

Introduction

Welcome to the Airmic Academy. The Academy forms part of the Airmic Education Programme. This guide describes the different types of Academy sessions and sets out the Academy. The Airmic Academy is free to Airmic members and one of the benefits of Airmic membership.

This brochure is published in hard copy several times during the year. Visit the Airmic website to find the most up to date version www.airmic.com/training

Airmic is the UK association for risk and insurance professionals, dedicated to shaping the future of the profession and supporting members in their roles. With more than 1,300 members, including professionals within 65% of the FTSE100, Airmic represents the largest network of corporate risk and insurance professionals in the UK.

To support members on their Professional Journey Airmic has developed an Education Programme of CPD-accredited events. These include the *fastTrack* Forum, the ERM Forum and the flagship annual conference, as well as roundtables, lectures, the Business Excellence and Risk Leadership Programmes, and an Academy Programme of workshops, webinars, one-day events.

The Academy Programme

The Academy programme reflects the learning needs of risk and insurance professionals at all stages of their career. Disruption is the new normal and no industry is exempt from change. We live and work in an increasingly complex, connected, and more challenging world, and although technology will facilitate change, people drive the decisions that drive that change. This context creates new risks and new opportunities, and demands a shift in emphasis for the risk professional, including being more aligned with business priorities, being professionally fit for the future, and more dynamic in stakeholder engagement. Academy topics will be added to the programme from time to time to reflect our environment, emerging risks and business issues.

Throughout the year, we will confirm dates for online and face to face sessions where these are not indicated in this brochure. Where precise dates for an Academy are shown this means that a firm date has been agreed. Where only the month is shown this is an indication and a final date can be found at: www.airmic.com/training

Join Airmic for free access to academy workshops

Airmic membership is open to everyone with a responsibility in risk or insurance within their organisation, including those focusing on business continuity, security, health and safety, human resources, finance, internal audit, technology, information, company secretarial, general counsel and facilities. If you are not a member and would like to take advantage of the learning benefits of membership, further details can be found at [page 10](http://www.airmic.com/training)

For further details of Airmic's Education Programme, Reports and Research, Marketplace of partners, News and Media and interest groups visit www.airmic.com

Please note that places at workshops are often limited

Please respect our speakers and your fellow members. If having registered to attend a workshop (face to face or online) you discover you can't attend, please let us know with as much notice as possible so we can offer the place to another individual. You can contact us at membership@airmic.com

Academy Workshops

Sessions are designed to build your understanding on complex subjects, top-up your knowledge on the essentials, or explore hot topics. Webinars are typically 60 minutes in duration and face to face workshops are between two and three hours long.

CPD contribution

Airmic workshops can be included as part of members' CPD requirements. Depending on their length, each Academy workshop contributes up to three hours towards a number of recognised CPD schemes.

*Further reading

Please note that workshops with * by them indicate that Airmic has published or will be publishing a report or a paper on the topic.

Keep updated: airmic.com/training

Confirmed dates for workshops are indicated by day and month in the date column. Where a precise date isn't indicated for a workshop, this means we're working with our speakers to agree this. Dates are regularly updated and subjects can be added. For the most up to date version of the Programme please visit www.airmic.com/training

Risk in the news: a review of 2020's key events	16 November

fastTrack

fastTrack is a rolling two-year Programme of interactive workshops supported by an annual Forum. Currently in Year Two, the Programme is designed for risk and insurance professionals in the first four years of their Professional Journey. Each year consists of a risk stream and an insurance stream. Although designed for professionals in the early years of their Professional Journey, any Airmic member may attend all or some of the workshops in either stream. Each workshop (delivered face to face or online via a webinar) has the objective of providing you with a fundamental understanding of the principles of risk management and insurance.

The annual fastTrack Forum is one of the few Airmic events also open to employees of Airmic sponsors. This is to encourage professional development and networking in a collaborative environment.

CPD contribution

Airmic workshops can be included as part of members' CPD requirements. The workshops below each contribute up to two hours towards recognised CPD schemes.

*Further reading

Please note that workshops with * by them indicate that Airmic has or will be publishing a paper/report on the respective topic.

The new Year 1 fastTrack programme starts in 2021 – dates and programme tbc

Academy Forums

A series of one-day events aimed at improving collaboration between risk and insurance professionals and other areas of the business to support C-Suite and board engagement. You are invited to bring along a colleague without charge from relevant professional areas in your organisation.

These events are a combination of thought leadership and plenary sessions packed with subject matter experts.

Airmic runs just two of these events each year, so look out for details and book fast as numbers are limited.

CPD contribution

Airmic workshops can be included as part of members' CPD requirements. The workshops below each contribute up to four hours towards recognised CPD schemes.

*Further reading

Please note that workshops marked with * indicate that Airmic has published or will be publishing a report or a paper on the topic.

Analytics in action	28 May
Risk Culture in today's business world	9 June
Risk maturity	29 June
Introduction to Business Continuity Management (BCM)	21 July

Academy Bootcamp

Using a blend of practical examples and theory, Bootcamps fully immerse just eight Airmic member delegates in a focused specific risk and/or insurance environment led by academic and business experts for three days.

There is no academic requirement to take part, but it is recommended that those who step forward have good abstract thinking. There will typically be some pre-course material.

Attendance is a member benefit and there will be no charge, but delegates must have their employer's support to take part and be committed to completing the full programme.

The programme will take place at a specific location in the UK.

For the most up to date version of the Programme please visit www.airmic.com/training

Academy Field Trips

Field Trips are a new educational offering for members - designed to take the members away from the workplace and into a specific work environment at selected organisations, and consider new developments and approaches to risk management.

One day in duration, Field Trips are free of charge (although personal travel costs are funded by individuals taking part). Each Field Trip is typically available for 12 Airmic members.

For the most up to date version of the Programme please visit www.airmic.com/training

Hot Topic Sessions *including Airmic LIVE*

A series of timely webinars based on various emerging hot topic areas in risk and insurance, including research developments and our highly popular weekly Airmic LIVE Webinar Series.

CPD contribution

Airmic sessions can be included as part of members' CPD requirements. The sessions below each contribute 30 minutes towards recognised CPD schemes.

Further reading

Please note that sessions marked with * indicate that Airmic has published or will be publishing a report or a paper on the topic.

Keep updated: airmic.com/training

Confirmed dates for sessions are indicated by day and month in the date column. Where a precise date isn't indicated for a session, this means we're working with our speakers to agree this. Dates are regularly updated and subjects can be added. For the most up to date version of the Programme please visit: www.airmic.com/training
