Join the association for everyone with  
a responsibility in risk or insurance

## MESSAGE FROM THE CEO

Welcome to Airmic, the “go-to” place for risk and insurance thought leadership, current news, learning, events, and networking. Whether you are in the risk management, resilience or insurance professions, a related profession, or academia, and whether you are starting out or in a leadership role, membership of Airmic will help you to make better informed decisions about risk and insurance.

Organisations are rethinking how they keep up with the speed of new risks emerging, the profile of known risks changing and how risk management practices need to adapt. Managing risk today must be a dynamic and continuous process – and on every board meeting agenda.

The insurance industry is rising to the challenges of the future world, whether these be physical issues such as natural catastrophe and climate change or intangible issues such as information security or reputation. The industry is investing in technology and the improved management of data and analytics. New business models are surfacing as the industry repurposes to meet the demands of our members and the organisations they serve.

We have seen Airmic members stepping up to support their organisations at a strategic level and there has been an increase in the level of respect for the profession, with many examples of great collaboration with leadership and peers.

Airmic has excellent relationships with government, regulators, industry, and affiliate associations in the worlds of risk management, risk financing, audit, accountancy, business continuity, and technology. We also maintain a close liaison with risk management associations in Europe, the US, South Africa, and Asia Pacific. We are proud to be a member of IFRIMA, the International Federation of Risk and Insurance Management Associations.

As CEO, I am honoured to be leading Airmic – it is exciting and a privilege to be part of a profession at the centre of global innovation and change!

**Julia Graham**  
*CEO, Airmic*

## AIRMIC AND ESG

With growing global concern surrounding the achievement of Sustainable Development Goals (SDG) by 2030, all organisations are increasingly interested in understanding how they manage their material environmental, social and governance (ESG) opportunities and risks, and how they deliver positive ESG impact.

Internally, Airmic recognises that an understanding and integration of ESG factors into our strategic decision-making is increasingly critical to the long-term viability of our association. Externally, we are conscious of the role risk management and insurance have to play in managing ESG and the connectivity with Enterprise Risk Management (ERM) in our Member and Partner organisations.

## ABOUT AIRMIC

Airmic celebrated its Diamond Anniversary in 2023. Today it is the UK's largest and most vibrant risk management and insurance association. We are growing through welcoming not only those in the risk management, resilience and insurance professions, but also those from other risk-related roles, including professionals with responsibilities for managing technology, information security, business continuity, people, health and safety, procurement, finance, legal, compliance, and internal audit. We welcome into our membership academics and students from some of the UK's leading business schools and universities. As such, we are in a strong position to provide networking and learning, to represent the views of our members, and to advocate for their needs within industry and government.

Our members enjoy access to a wide variety of face-to-face and online events and learning experiences, networking, and special interest groups, supported by a competency framework and mentoring scheme. We have a technical library and online contemporary materials featuring work by some of the risk and insurance profession's brightest, most innovative, and experienced talent.

# Advancing the future of risk and insurance

## OUR PURPOSE

To champion the value of risk management and insurance in a changing world.

## OUR MISSION

To drive transformation in risk management and insurance through our membership, partnerships and affiliate relationships.

## OUR GOALS

### Connecting the Profession

We provide unrivalled networking and peer learning opportunities for our members. Whether at our annual conference, our topic, and technical forums, or in our industry groups of practitioners, Airmic is at the centre of a fast-growing community of risk professionals, providing opportunities for new networks to be built, existing ones to be strengthened, and for peers to share best practice and insights.

### Education and Training

We support our members' learning and development at every stage of their career by offering valuable content, events and learning through our Learning and Development programme, which are CPD-accredited.

### Expert Thought Leadership

We are recognised as a centre of excellence in risk management, resilience, and insurance, driving research, good practice and innovation through our stakeholders and academia. We deliver strategic thought leadership, technical guides, practical reports and a curated knowledge archive to help our members add value to their businesses and remain up to date on the latest developments and knowledge, and how to apply this.

### Advocating for Members

We strive to be a voice for our members on the issues directly affecting them. We build links with industry, government and regulators to ensure member voices are heard in both the boardroom and the halls of political and regulatory power.

# Supporting your professional journey

1

## ENTRY

If you are qualified or newly qualified, you can develop your technical knowledge through the fastTrack Programme and EXPLAINED Guides, which provide the basic principles of risk and insurance.

2

## EMERGING | NEWLY QUALIFIED

You can achieve more meaningful knowledge and skills and how to apply them by exchanging experiences with peers, attending the Airmic Academy and Business Excellence Programme, while deepening your knowledge with resources from the technical library, Airmic LIVE and Airmic TALKS.

3

## ESTABLISHED | MID CAREER

If you wish to grow your knowledge and skills, you can attend special interest groups, lectures and roundtables, access supporting knowledge from the technical library, Airmic TALKS and Airmic LIVE. At this stage of your career, you may also consider joining the Airmic Mentoring Scheme as a reverse mentor.

4

## EXCELLING | PRACTICE LEADER

If you are a practice leader in your field, you have opportunities to master knowledge and successful skills application by attending leadership development events, by leading or moderating at Airmic events, and by demonstrating commitment through regular participation in Airmic committees and leadership group roundtables.

5

## AUTHORITATIVE | THOUGHT LEADER

If you are at the forefront of pioneering new knowledge and skills for yourself and others, Airmic offers you opportunities to contribute to research, attend leadership development events, serve on the Airmic Board, chair committees, and present at external events as an Airmic ambassador.

## What our members say

Airmic membership supports my professional development by providing the latest thinking, thoughts and insight on risk management. This ensures that as a risk professional in my organisation, I am fully on top of what is developing in the industry.

**Richard James**

*Nuclear Transport Solutions*

---

We found the RMF course highly engaging. It was fairly fast paced and effectively delivered. The small group size created an excellent environment for open discussion, and the diversity of participants.

**Lianne Gentle and Stephen Okyere**

*Rentokil-Initial*

---

The Business Excellence programme offers an exploration of multiple risk topics. Its interactive format kept me engaged, with challenging content that deepened my understanding. Fantastic speakers were knowledgeable and experienced. Recommended!

**Sean Burkinshaw**

*IHG*

---

Airmic membership benefits my professional development as I get to work with Airmic on the issues of the day. I attend a lot of sessions which give me the opportunity to hear from peers and thought leaders to make sure I'm not missing anything and remain at the cutting edge of best practice.

**Clare Ball**

*Babcock International Group*

---

The Airmic membership benefits individuals because as well as access to continuous learning, members are also supported through technical papers and special interest groups. Airmic gives risk & insurance professionals a solid foundation of support, which I think is unique in our industry.

**Glenn Ellis**

*Airmic Board member and Airmic ESG Ambassador*

---

Want to learn more, develop and grow in your role and feel more connected to others in similar roles? Then joining Airmic is the right call. As the chair of the Legal Special Interest Group I plan speakers who educate and challenge lateral thinking.

**Justine Cowling**

*BCLP LLP, Chair of the Airmic Legal SIG  
and Airmic Board member*

---

## Why become an Airmic member?

Our members enjoy access to a range of workshops, technical guides, mentoring and conferences to support them at all stages in their career, to help them achieve CPD and to connect them to a community of peers – all at no extra cost.

### 1. BE PART OF THE COMMUNITY

Learn from peers and build a network through member-led interest groups, covering a range of topics and industries.

### 2. LEARN, DEVELOP AND LEAD

With more than 70 events per year, Airmic delivers the latest CPD-accredited professional development and training to help members learn and lead.

### 3. ATTEND CPD-ACCREDITED EVENTS

Our annual conference, a flagship event that attracts more than 2,000 attendees, is the highlight of our events programme, which also provides members with workshops, high-profile speakers, and many unrivalled networking opportunities across different topics and locations, throughout the year.

### 4. GAIN KNOWLEDGE AND INSIGHT

Airmic carries out in-depth research and regularly publishes thought leadership articles, guides and surveys.

### RISK MANAGEMENT FUNDAMENTALS COURSE

The Airmic Risk Management Fundamentals (RMF) course will equip members and their organisations with the essential knowledge and skills to navigate the increasingly complex world of risk. Delivered by leading risk professionals across two days (in-person) or three half days (virtually), and supported by an online platform, delegates will experience six interactive modules packed with the latest thinking on risk management, coupled with access to practical resources. Special course discounts are offered to Airmic members.
