Airmic Field Trips

CPD

CPD hours available

“Risk professionals can become strategically aligned **enablers** in their organisations. To achieve this, they must develop **new mindsets** and ensure their **competencies** move at the pace necessary for them to operate as part of an integrated and collaborative team”

Julia Graham, CEO Airmic

THE AIRMIC COMPETENCY
FRAMEWORK FOR
RISK MANAGEMENT PROFESSIONALS

CORE PRINCIPLES

What is expected of me and how I should act

What applies to all risk management professionals regardless of their role, sector or stage in their professional journey.

RISK MANAGEMENT ATTAINMENT AND DEVELOPMENT

What professional knowledge and skills I must have and how to use them

Governed by a Code of Ethics and certified by a professional body, with knowledge, skills and other competencies achieved and maintained according to established and verified standards.

BUSINESS AWARENESS

What I must know to add business value

Business knowledge and understanding to support good risk management judgements and decisions and to contribute to improved organisational performance and personal leadership development.

BEHAVIOURS AND MINDSET

What allows me to interact successfully with others and how I can achieve success

The behaviours we adopt are the result of our mindset combined with our knowledge and skills. Mindset plays a critical role in coping with challenges and those with a positive mindset are more likely to achieve success.
